Below you will find 5 picture maps .... **Please do not show them to your children yet.** You will have to decide whether to use these picture/maps or whether to create your own. It would be more creative if you make your own with your children of course.

The first picture/map is of the whole story so far. You will find the village, the mountain range and the harbour, the dangerous tracks through the swamp, the forest, past the bear and into the hiding place in the mountains. And the volcano is starting to erupt! Then you can see the track that leads to the sea.

The second one shows the volcano smoke billowing.

The third one is a close up of the volcano smoke billowing.

The fourth one shows a close up of the track leading down to the sea.

The fifth one is a close up of the harbour.
